7.Affiliation / Address

95 Zhongguancun East Road, 100190, BEIJING, CHINA

8.PhD year

2018

9.University where you obtained PhD

University of Chinese Academy of Sciences

10.APSIPA membership grade

Member

11.I confirmed my willingness to serve and perform duties according to the APSIPA's Bylaws, Polices and Procedures. I understand the responsibilities of a TC member, in particular reviewing papers for APSIPA ASC (about 10 papers), attending the yearly meeting of the TC, in addition to participating in the activities of the TC.

☒ Understand

12.List of 5 publications/patents that are most relevant to APSIPA

[1] Jiangyan Yi, Hao Ni, Zhengqi Wen, Jianhua Tao: Improving BLSTM RNN based Mandarin speech recognition using accent dependent bottleneck features. APSIPA 2016: 1-5

[2] Jiangyan Yi, Jianhua Tao: Batch Normalization based Unsupervised Speaker Adaptation for Acoustic Models. APSIPA 2019: 176-180

[3] Jiangyan Yi, Jianhua Tao: Distilling Knowledge for Distant Speech Recognition via Parallel Data. APSIPA 2019: 170-175

[4] Ye Bai, Jiangyan Yi, Jianhua Tao, Zhengqi Wen, Bin Liu: Voice Activity Detection Based on Time-Delay Neural Networks. APSIPA 2019: 1173-1178

[5] Qiuxian Zhang, Jiangyan Yi, Jianhua Tao, Mingliang Gu, Yong Ma: Focal Loss for End-to-end Short Utterances Chinese Dialect Identification. APSIPA 2019: 397-401

13.Name of nominator

Dong Wang

14.Supporting Statement (not to exceed 600 words)

Prof. Jiangyan Yi is an known scholar in speech and language processing. She has published many high-quality papers in the field,including papaer on APSIPA ASC. Prof. Yi is also active in serving the research community -- she took the role of organizers of a couple of international conferences. Especially, she served as the publication chair of APSIPA 2019 in Lanzhou. She is also an active reviewer of APSIPA for many times. I highly recommend Prof. Yi joining the SLA TC.
